

GIVING BACK

Lee Carlson Center is a 501c3 with a mission to provide exceptional and affordable mental health services for families, children, youth and adults in our community. Close to 100% of charitable donations go directly into covering the costs of treatment for the more than 60% of clients who otherwise would not be able to access necessary services.

When you make a gift to Lee Carlson Center, you make a gift of hope, health and healing to children in foster care, adults experiencing severe and persistent mental illness, your neighbors and your greater community.

Join us in the mission to make mental health services accessible to anyone who needs it, when they need it. Visit leecarlsoncenter.org/give to learn more or contact Chief Development Officer, Sarah Caflisch, 763-230-7836.

About Lee Carlson Center

We are the primary provider of outpatient mental health services in Anoka County and surrounding areas, impacting the lives of 6,000+ individuals, families and caregivers each year. Lee Carlson, a Registered Nurse, founded the center in 1979 with a focus on helping at-risk youth through support groups in area schools. Our school-based program remains a cornerstone of our services, providing individual, group and family therapy in seven school districts.

Who We Serve

Our clinical team works with individuals and families and sees clients from ages 2-92 throughout the Twin Cities area.

Payment

Most insurance plans are accepted and a sliding fee is available for those who qualify. Contact 763.780.3036 to learn more about your options.

Our Clinic Services for adults, children, youth and families include:

- Individual & Group Therapy
- Psychological Testing & Assessment
- Art Therapy
- Integrative and Holistic Treatments
- Trauma Therapy
- Psychiatry and Medication Management
- Couples Counseling
- Parent Support & Coaching
- Family Therapy
- Play Therapy

Other Agency Programs include:

Bridgeview Drop-In Center

Bridgeview is a drop in-center and hub for adults 18+ living with Serious and Persistent Mental Illness (SPMI) diagnosed by a physician or mental health professional. Staff works closely with participants, care providers and community organizations to assist with access to resources and services. Membership and participation are free. Therapy services are billed to insurance. Transportation is free to Anoka County residents

Domestic Abuse Program

This program serves Anoka, Hennepin and surrounding counties with a variety of services for those who are male and female survivors and/or aggressors of domestic abuse. Group and individual sessions are available. The program also includes a Restorative Parenting component, and a Children and Adolescent Program is available for youth impacted by violence in the home.

In-Home Mental Health Services

Lee Carlson Center is a certified provider of Children's Therapeutic Services and Support (CTSS). This service offers a structured, consistent, strengths-based process provided by a clinician to children, youth and families for the purpose of treating the youth's social, emotional and behavioral-health needs.

For adults in need of in-home services, the agency provides Adult Rehabilitative Mental Health Services (ARMHS). This program is built around basic living and social skills, community intervention, medication education, and transitioning to community living. ARMHS services are insured by Medicaid and are for those who are pre-diagnosed with a serious and persistent mental illness.

Housing Stabilization and Community Support

This program offers support to those with Medical Assistance who are experiencing homelessness or housing instability. Lee Carlson Center's housing stabilization services can help clients plan for, find, and move into housing; retain housing after moving in; find financial resources; and communicate with landlords.

Intensive Treatment in Foster Care (ITFC)

This program is trauma-informed and client centered. ITFC is a flexible and intensive mental health service available to children living in foster care. The program is provided to the child, foster parents, foster families, biological or pre-adoptive families and anyone who is part of the child's treatment service program.

School-Based Mental Health

Any student with an emotional or behavioral need can access our on-site services in the seven districts we currently serve. The program includes individual, group and family therapy, consultation with school staff, art therapy and play therapy. Participants also have access to in-home services, psychiatry and medication management, psychological testing, integrative and holistic treatments and parent support and coaching.
