About Intensive Treatment in Foster Care

Our Intensive Treatment in Foster Care program is trauma-informed and client centered. ITFC is a flexible and intensive mental health service available to children living in foster care. Children in this program will receive a comprehensive extended assessment, psychotherapy services, crisis assistance, clinical care consultation and psycho-education services.

Who can be served by the program?

ITFC is provided to the child, foster parents, foster families, biological or pre-adoptive families and anyone who is a part of the child's treatment service team.

Who can make a referral to the program?

Counties must make the referral to the program but other treating professionals or foster parents can make a referral to the county or invoice Lee Carlson Center with a release of information to start the process.

What is needed to begin the service?

Counties complete a CASII Level 4 Assessment, make an ITFC referral to a certified agency and, with the agency, develop a Service Provision Contract for each youth referred. Call 763.780.3036 for more information or assistance with this process.

Who pays for the service?

Lee Carlson Center bills all services for payment to Minnesota Health Care Programs (MA).

How frequent do services occur?

Services are typically provided 3 days a week for a total of about 6 hours each week with 24/7 on-call phone support.

Our ITFC clients have access to other services the agency offers, including:

- In-Home Therapy
- School-based Therapy
- Individual & Group Therapy
- Psychological Testing & Assessment
- Art Therapy
- Integrative and Holistic Treatments
- Restorative Parenting
- Trauma Therapy
- Psychiatry and Medication Management
- Couples Counseling
- Parent Support & Coaching
- Family Therapy
- Play Therapy

Ask your provider to be referred or contact our INTAKE LINE at 763.780.3036.
